## About Conference:

Welcome to the International Congress on AI & Digital Psychiatry 2026 which is going to be scheduled during September 17-18, 2026 as a Webinar, a global event focused on advancing AI in mental health, digital psychiatry, and innovative psychiatric research.

This congress brings together psychiatrists, neuroscientists, AI researchers, and healthcare professionals to explore cutting-edge solutions in digital mental healthcare, machine learning in psychiatry, and AI-powered diagnosis systems. Join us to collaborate, share research, and shape the future of AI & Digital Psychiatry for scalable and accessible mental healthcare worldwide.

## Why to Attend the Conference:

The **International Congress on AI & Digital Psychiatry 2026** is a leading global event focused on advancing AI in mental health, digital psychiatry innovations, machine learning in psychiatry, and AI-powered healthcare solutions. This congress brings together experts in psychiatry, neuroscience, artificial intelligence, and digital health to explore scalable and data-driven approaches for modern mental healthcare systems. With growing demand for telepsychiatry, digital therapeutics, and AI-based mental health diagnostics, the conference serves as a key platform for research collaboration, knowledge sharing, and innovation in AI & Digital Psychiatry Congress 2026.

## Benefits of Attending:

- Learn from over 50 internationally recognized experts and researchers in psychiatry and brain health.
- Participate in interactive workshops, panel discussions, and practical case-based sessions.
- Network and collaborate with clinicians, academics, and healthcare innovators from around the world.
- Explore innovative wellness solutions and emerging products through the dedicated exhibitor showcase.

### Speaker Benefits:

Speakers receive international visibility and professional recognition, along with an official speaker certificate and access to exclusive networking opportunities with global experts. Additional promotional exposure is provided through conference materials, and selected contributions may be included in the official conference proceedings or associated e-journals, where applicable.

### Delegate Benefits:

Delegates gain access to expert-led sessions highlighting the latest developments in psychiatry and brain health, along with a certificate of participation. The program offers interactive learning through Q&A sessions, panel discussions, and workshops, while providing opportunities to connect and network with professionals from around the world.

### Poster Presenters (Live) Benefits:

Live poster presenters have the opportunity to showcase their research to an international audience, engage in real-time discussion and feedback, and be considered for Best Poster Presentation awards. All live presenters receive an official digital certificate of participation.

### E-Poster Presenters Benefits:

E-poster presenters enjoy continuous online display of their work in a virtual poster gallery, allowing attendee interaction before, during, and after the event. Presenters receive an official e-poster certificate and may be eligible for inclusion in the e-conference proceedings without the requirement of a live presentation.
